ONE-TO-ONE INSTRUCTION™

THE TUTORING CENTER uses a unique system of
one-to-one instruction known as "The Rotational
Approach to Learning."

This type of instruction yields far greater results
than small-group instruction offered by any of our
competitors.

THE ROTATIONAL APPROACH TO LEARNING®

The "RATL" was first developed in 1994 to help
children who were not reaching their potential or
had problems with concentration and focus.
Think of it like "Interval Training for Children"

One-to-One Instruction, Individualized Programs
Reading ~ Math ~ Writing ~ Enrichment
No Contracts!

OUR APPROACH...

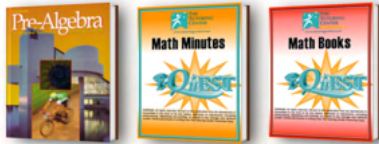

One-To-One Instruction

NEVER THIS...
"SMALL GROUP"

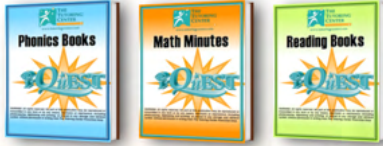

GROUP INSTRUCTION

MATH PROGRAM

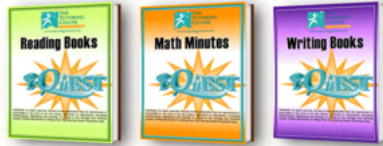

Our Geniuses in Training Math Program™ increase your child's computational and problem-solving skills while also preparing your child for immediate classroom challenges like daily assignments and chapter tests.

READING PROGRAM K-3

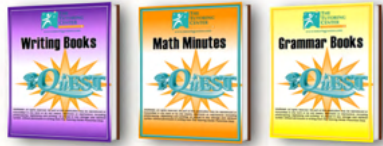

With our Geniuses in Training Reading Program™ you'll see dramatic improvements in reading comprehension, phonics, sight words, and vocabulary building.

READING PROGRAM 4-12

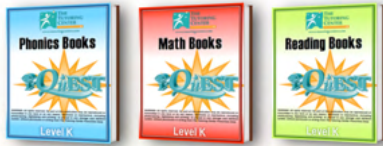

Our Geniuses in Training Reading Program™ for grades 4-12 not only provides the skills for tackling complex texts, it also includes additional assistance with the mechanics of writing. With their improved reading and writing skills, students will also be prepared for leaps in Social Studies, Science, and any other subject where reading comprehension and writing are important. Watch your child discover the pleasures of Language Arts with their new-found focus and concentration.

WRITING PROGRAM

Our Geniuses in Training Writing Program™ is designed to prepare your child for advanced courses in High School, including Writing Composition and Language Arts. We cover everything from grammar to punctuation and equip students with the tools to write with clarity and conviction. Spelling and grammar count in the competitive environments that will face our students. We provide the focus and tools to improve student's writing skills today.

KINDERGARTEN PROGRAM

Research shows that students who are given a head start in acquiring knowledge before it's presented in the 1st grade perform better than other students year after year. Our Little Geniuses in Training Kindergarten Program™ begins at a level where your child is comfortable and then empowers your child to "Reach For The Highest Star!" Give your child this advantage and start with The Tutoring Center today.

ACADEMIC PROGRAMS

ACADEMIC PROGRAMS

Improving your child's academic performance requires more than an ideal environment and fantastic instructors. Our specially crafted "Geniuses In Training" Academic Programs in Math, Reading, and Writing provide the coursework that lead to academic success.

Our Academic Programs in Math, Reading, and Writing are designed for students in K-12 who are struggling in school or who have fallen behind their grade level. Designed for The Rotational Approach To Learning™, these programs are split into one 30-minute section, followed by two 15-minute sections.

ENRICHMENT PROGRAMS

THE TUTORING CENTER'S Enrichment Programs are designed for students who are excelling in school AND are ahead of grade level in Reading, Math, and Writing. These programs are designed for students to become more competitive and have further enrichment. The Tutoring Center® has developed programs for students who are excelling in school and are ahead of their grade level—all to help even the brightest student reach their highest potential. Designed for The Rotational Approach To Learning™, these programs are split into one 30-minute section, followed by two 15-minute sections.

SAT/ACT TEST PREP

Make sure your student is prepared for the SAT or ACT test. We provide Test Prep at a fraction of the cost of our competitors. Highly Trained Tutors, coupled with our innovative course books and practice tests will help students develop the knowledge and test-taking strategies necessary to perform well on the SAT or ACT test.

Please contact us for more information on the SAT/ACT Program.

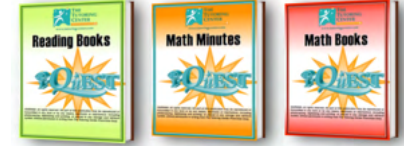

PROGRAM OVERVIEW

FastTrack™ HONORS MATH

Accelerate through four years of math topics in under a year and a half! FastTrack™ Honors Math is designed to keep students ahead of the curve in their math class. Students will receive intense one-to-one instruction across three simultaneous tracks that cover their past, current, and future math levels, all while increasing concentration span, improving memory, and developing intense test-taking skills. This program will help your students take the FastTrack™ to the top of the class.

ENRICHMENT PROGRAM

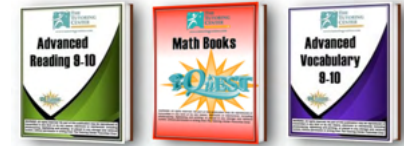

This exciting program helps your child achieve maximum, long-term educational success with increased motivation and confidence. The Enrichment Program includes intense practice in Reading, Math, and Writing.

STUDY SKILLS ENRICHMENT PROGRAM

This program is designed to help students learn efficiently and without the stress that comes from bad habits, disorganization, and poor note-taking and test-taking. With improved study skills, concentration, comprehension, and reading speed, students will be able to achieve results in less time and without needless stress.

PRE-SAT TEST PREP

In today's competitive environment, getting your child prepared for Advanced Placement courses and the College SAT/ACT Test is vital to getting accepted into the college of your choice. Reserved for high-achieving students, the Pre-SAT Prep program requires commitment but delivers results, helping your child not only succeed in getting into college, but achieve long-term education success thanks to increased motivation and confidence.

AP MATH PROGRAM

Our Advanced Placement (AP) Math Program covers high level math all the way through Integral Calculus and the applications of integrals. The Pre-Calculus curriculum covers advanced topics in Algebra and Trigonometry. An understanding of this material is necessary before beginning either the standard college Calculus or high school AP Calculus courses. The Calculus curriculum covers differential calculus, integral calculus, and the applications of integrals. The calculus curriculum is intended to cover all the material required for the AP Test in Calculus AB.
